

# Act now for a #Wilder Future

To reverse dramatic declines in many species and important habitats, we urgently need more people on nature's side to create more space for wildlife to thrive.

## Take the first steps:

- **Create spaces for wildlife in your gardens and communities.**
- **Encourage your school and workplace to campaign for wildlife.**

We, Hampshire & Isle of Wight Wildlife Trust, are dedicating our time and experience to help people help wildlife and invite nature back into our lives.

## We will help you be part of something wilder.

- **Share your story with us and your friends. Get people talking.**
- **Get connected to like-minded people to work together on a project or create a community group.**
- **Make your garden a part of our Wild Street network in Portsmouth.**
- **Join us in our campaigns to change government policy.**

## Join #TeamWilder

Together, we form a part of the national and global effort for a better, wilder future.
