

Waste of Space Walk Easter Edition

Take a walk around your school grounds with your pupils or students and find some wasted spaces.

You will need:

- Paper Easter eggs (printed on next page)
- Scissors and colouring materials
- Make shift egg baskets - any container that will hold multiple paper eggs

Get started:

1. Choose your Easter eggs (printed on next page) and spend some time colouring them in. Don't forget to write your name and class on the back.
2. Prepare to go outside, look at the weather, do I need wellies or a coat?
3. Take a walk around your school grounds and STOP whenever someone spots an area they think is a waste of space.
4. At the waste of space, discuss with each other if you agree or disagree. Why have you chosen that space to be a Waste of Space? What would you like to see in this space instead?
5. Students and pupils 'vote' on whether they agree or disagree that this space is a Waste of Space by placing eggs in your make shift egg basket. Make a note of which location the egg basket refers to.
6. Continue steps 3,4,and 5 until everyone has given up their eggs.
7. At the end of the walk, count the eggs up to give a total for each chosen Waste of Space location.

Which Waste of Space has the most eggs? Do these spaces have the potential of being transformed into better spaces for pupils, students, and wildlife? Map your Waste of Space on our interactive map -

Waste of Space Walk

Once you've identified your Wastes of Spaces on your school grounds, write a postcard to your headteacher and board of governors to let them know what the space means to you!

You will need:

- Waste of Space postcards (print double sided on next page)
- Scissors and colouring materials

Get started:

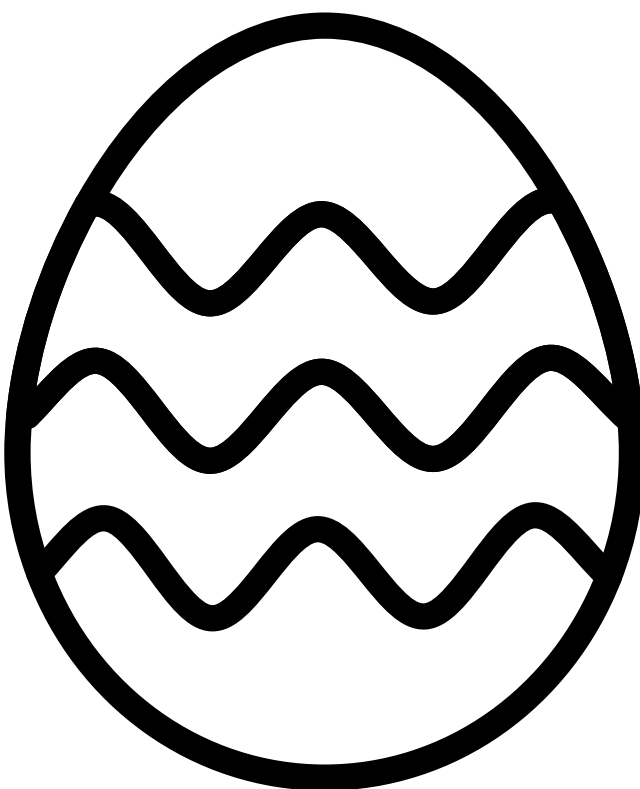

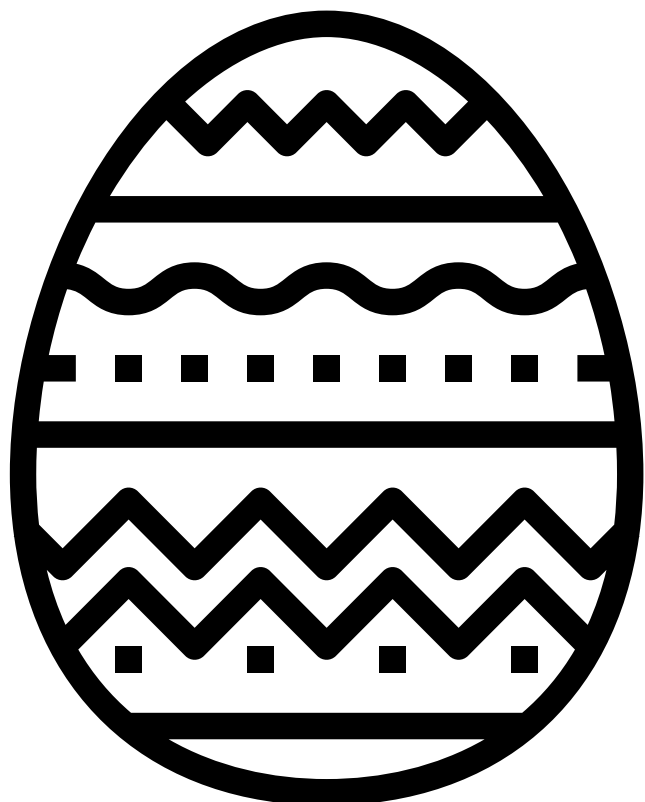

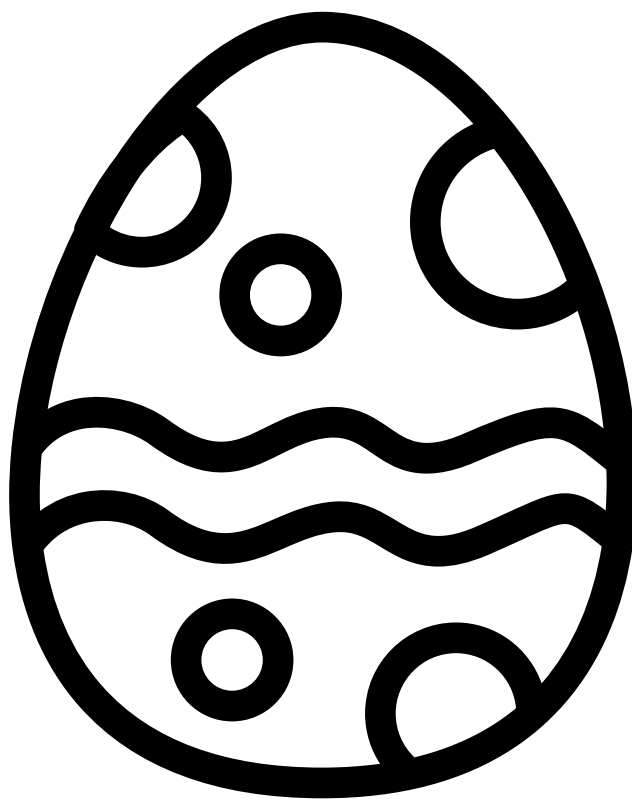

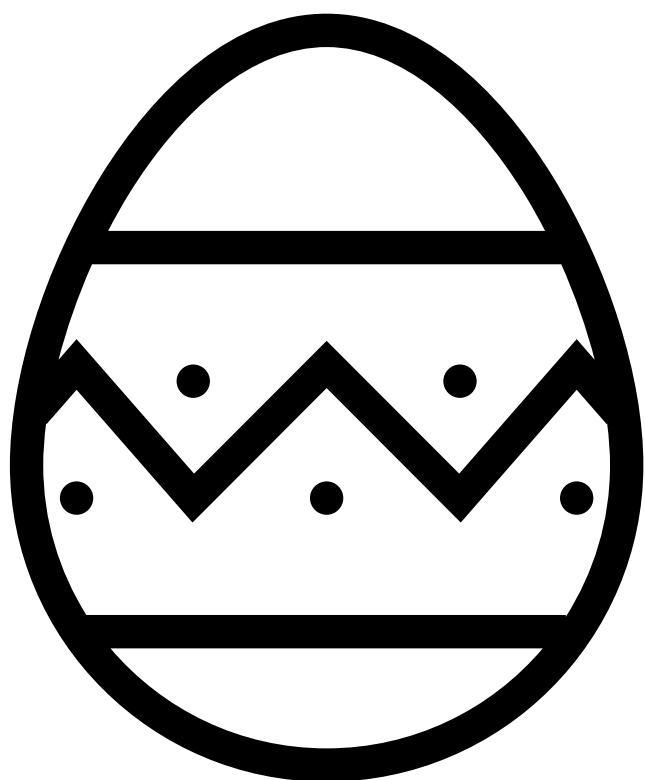

1. On the front of the postcard draw your Waste of Space how it looks now, or draw what you wish your Waste of Space would look like in the future.
2. Turn the postcard over and write a letter to your headteacher to ask them to support your class and school by helping you turn this waste of space into a place that students and wildlife can both enjoy.
3. Ask your teacher to kindly deliver the postcards to your headteacher or put them up on a notice board in the hallways.

Waste of Space walk

Take a walk around your school grounds with your pupils or students and find some wasted spaces.

You will need:

- Paper voting ballots printed on next page. Or any other voting ballots.
- Scissors and colouring materials
- Make shift ballot boxes - any container that will hold multiple ballots

Get started:

1. Cut out and colour in your voting ballots. Don't forget to write your name and class on the back.
2. Prepare to go outside, look at the weather, do I need wellies or a coat?
3. Take a walk around your school grounds and STOP whenever someone spots an area they think is a waste of space.
4. At the waste of space, discuss with each other if you agree or disagree. Why have you chosen that space to be a Waste of Space? What would you like to see in this space instead?
5. Students and pupils 'vote' on whether they agree or disagree that this space is a Waste of Space by placing ballots in your make shift ballot box. Make a note of which location the box refers to.
6. Continue steps 3,4,and 5 until everyone has voted.
7. At the end of the walk, count the votes to get a total for each chosen Waste of Space location.
Which Waste of Space has the most votes? Do these spaces have the potential of being transformed into better spaces for pupils, students, and wildlife?
